Since its inception in 1983, the Elks Drug Awareness Program has worked to prevent drug use by our youth through education. The Elks recognize that they are not experts in the field of drug education. However, the Elks do have the resources -- in dollars, facilities and volunteers -- to work with the experts to ensure that young people know the facts about drugs. In addition to sponsoring seminars, workshops and drug-free functions, the Elks print and distribute literature developed by authorities on drug awareness. Since 1983, the Elks have printed and handed out more than 150 million pieces of literature to students, their teachers and their parents. The Elks Drug Awareness Program also holds essay and poster contest to help the youth of America understand the dangers of drug use.
